Main body

All the tables, diagrams and figures should be referenced in the text with their number.

Drawings and diagrams in Word must be grouped within a single object; otherwise the elements can be shifted when the page borders change. In case of tables and diagrams in Excel, a source file in the .xls format is always attached.

Bibliographic references in the text are marked in square brackets, indicating the source number in the list of references: [2] or [1, 2, 5].

The list of literature sources

The sources are listed in alphabetical order.

The sources in foreign languages are listed at the end of the list.

All the sources included in the list should be referenced in the text.

The list of sources should be arranged in accordance with the requirements of GOST R 7.0.5-2008.
